# Origins and Composition of the Hadestown Score

## Creative Roots and Composer Background

The Hadestown score was crafted by singer-songwriter and composer Anaïs Mitchell. Her background in folk and indie music laid the foundation for a score that blends contemporary songwriting with traditional musical theatre sensibilities. Mitchell's fascination with Greek mythology and

storytelling is evident throughout her work, culminating in Hadestown, which reimagines the myth of Orpheus and Eurydice within a dystopian, jazz-infused setting. Mitchell began developing Hadestown over a decade before its Broadway debut, initially as a concept album released in 2010. The album's success and the compelling narrative prompted further development, eventually leading to its stage adaptation with orchestrations and arrangements that elevated the score to new heights.

## Collaborative Arrangements and Orchestrations

The score's distinctive sound was shaped through collaborations with orchestrator Michael Chorney, who helped translate Mitchell's compositions into a full orchestral and band arrangement suitable for live theatre. The orchestration employs a small but versatile ensemble, including traditional jazz instruments like saxophones, trumpets, and bass, blended with folk instruments such as acoustic guitar and mandolin. These choices foster an intimate, earthy soundscape that echoes the mythic themes. The orchestrations are characterized by their rich textures, dynamic contrasts, and clever use of instrumental timbres to evoke different moods—from the lively, bustling underground world of Hades to the tender, longing moments of Orpheus's love for Eurydice.
