Answer:

"Symmetric encryption uses a single key for both encryption and decryption, making it faster but requiring secure key exchange. Examples include AES and DES. RSA and ECC are common asymmetric algorithms."

Tip:

Use clear language and examples to demonstrate understanding.

1. What is a firewall, and how does it protect a network?

Answer:

"A firewall is a security device or software that monitors and controls incoming and outgoing network traffic based on predefined security rules. Firewalls prevent unauthorized access, block malicious traffic, and can be configured to restrict certain types of data or applications from passing through."

Tip:

Explain technical concepts in simple terms for clarity.

1. Describe what an intrusion detection system (IDS) does.

Answer:

"An intrusion detection system monitors network or system activities for malicious actions or policy violations. It analyzes traffic patterns and behaviors to identify potential threats such as unauthorized access or malware. When suspicious activity is detected, the IDS alerts security personnel for further investigation. Some systems are passive (just alert), while others can be active (prevent or block threats)."

Soft Skills and Behavioral Questions

1. How do you handle stressful situations during a security breach?

Answer:

"During a security breach, I remain calm, focused, and methodical. I prioritize containment to limit damage, follow incident response procedures, and communicate clearly with team members and management. After addressing the immediate threat, I conduct a thorough analysis to prevent future incidents. Maintaining composure helps ensure effective decision-making under pressure."

1. Why do you want to work in security?

Answer:

"I am passionate about protecting organizations from evolving threats. The dynamic nature of security challenges excites me, and I enjoy applying my technical skills to solve complex problems. Contributing to a company's safety and integrity gives me a strong sense of purpose and motivates me to stay current in this ever-changing field."
