Understanding the Avco Lycoming GO 480 B D and F6 Series IPC Parts Catalog

The Illustrated Parts Catalog (IPC) is designed to provide clear, visual references to every component of the GO-480 series engine models. For those unfamiliar, Avco Lycoming is a renowned manufacturer of aircraft piston engines, and the GO-480 series represents a line of geared, horizontally opposed, six-cylinder engines widely used in smaller aircraft.

What Is the GO-480 B D and F6 Series?

The GO-480 series engines are geared, horizontally opposed six-cylinder engines that deliver reliable power for various general aviation aircraft. The B, D, and F6 sub-models differ in mounting configurations, accessory drives, and other engineering details tailored to specific aircraft installations. Knowing your exact model is crucial when referring to the IPC because parts and assemblies can vary significantly among variants.

Purpose of the IPC Parts Catalog

The IPC serves as a detailed blueprint of the engine, illustrating every part with exploded views, part numbers, and descriptions. It allows maintenance personnel to: - Identify the correct part numbers for repairs or replacements. - Understand assembly

relationships and part compatibility. - Verify part specifications and revisions. - Streamline ordering processes by referencing accurate catalog numbers. This tool helps avoid costly mistakes such as ordering incorrect parts or misidentifying components, which is especially important in aviation where precision is paramount.

Key Features of the Avco Lycoming GO 480 B D and F6 Series IPC Parts Catalog

The IPC is structured to be user-friendly and intuitive, even for those who may not be professional mechanics. Some of its standout features include:

Exploded Views and Diagrams

One of the most valuable aspects of the IPC is its detailed exploded diagrams. These illustrations separate the engine into logical groups—such as the crankcase, cylinder assemblies, accessory drives, and fuel systems—allowing users to see how parts fit together. This visual aid is critical for troubleshooting and understanding assembly order.

Comprehensive Part Listings

Accompanying each diagram is a detailed list of parts with corresponding part numbers, descriptions, quantities required,

and sometimes even notes on serviceability or replacement intervals. This level of detail ensures users can pinpoint exactly what they need.

Cross-References and Updates

Given that aircraft engines undergo periodic updates and modifications, the IPC often includes cross-references for superseded parts and notices about service bulletins or airworthiness directives. Staying current with these ensures compliance with regulatory standards and engine safety.

Using the IPC Effectively: Tips and Best Practices

Having access to the Avco Lycoming GO 480 B D and F6 series IPC parts catalog is one thing; knowing how to use it effectively is another. Here are some practical insights:

Identify Your Engine Model First

Before diving into the parts catalog, verify your engine’s exact model and serial number. This information is usually stamped on the engine data plate. Using the wrong model’s IPC can lead to ordering incompatible parts.

Cross-Check Part Numbers Carefully

Parts might have similar numbers or appearances but differ in specifications. Always cross-reference part numbers and consult notes within the IPC to confirm suitability, especially if dealing with replacement parts or upgrades.

Leverage Digital Versions When Possible

Many operators find digital versions of the IPC more convenient as they often come with search functions and hyperlinks for quick navigation. Digital catalogs also tend to be updated more frequently, ensuring access to the latest information.

Consult Service Bulletins and ADs

Aircraft engine maintenance is tightly regulated. Always review any relevant Service Bulletins (SBs) or Airworthiness Directives (ADs) associated with your GO 480 series engine. These documents sometimes recommend specific parts or procedures, which can be referenced in the IPC.

Where to Find and Purchase Avco Lycoming GO 480 B D and F6 Series Parts

Once you've identified the correct parts using the IPC, the next

step is sourcing them. Genuine Avco Lycoming parts can be purchased through:

1. **Authorized Distributors:** Official Avco Lycoming dealers offer certified parts that meet manufacturer standards.
2. **Certified Aircraft Maintenance Shops:** Many shops maintain inventories or can order parts directly for you.
3. **Online Aircraft Parts Suppliers:** Websites specializing in aircraft components often stock GO-480 series parts; ensure they are genuine and come with proper certifications.
4. **Used Parts Marketplaces:** For some hard-to-find or discontinued parts, used components from reputable sellers can be an option, provided they come with documentation verifying condition and airworthiness.

It’s crucial to avoid counterfeit or non-certified parts, as these can compromise engine performance and safety.

Common Parts and Components Covered in the IPC

The Avco Lycoming GO 480 B D and F6 series IPC parts catalog covers a wide range of components, including but not limited to:

1. Crankcase assemblies and crankshafts
2. Pistons, piston rings, and connecting rods
3. Cylinders and cylinder heads

4. Camshafts and valve train components
5. Accessory drives such as magnetos, fuel pumps, and oil pumps
6. Carburetors and fuel system components
7. Engine mounts and vibration isolators
8. Gaskets, seals, and fasteners

Each component is detailed with part numbers and assembly notes, helping users understand compatibility and maintenance requirements.

Why Keeping the IPC Updated Matters

Aircraft engine technology and regulations evolve, and manufacturers periodically revise their parts catalogs to reflect improvements, corrections, or regulatory changes. Using an outdated IPC can result in: - Ordering obsolete or superseded parts. - Missing critical updates about part modifications. - Overlooking safety notices that mandate part replacements. Therefore, maintaining access to the latest Avco Lycoming GO 480 B D and F6 series IPC parts catalog is essential for safe and efficient engine maintenance.
