1. Location

Location answers the question, "Where is it?" It can be described in two ways: absolute location, which uses coordinates like latitude and longitude, and relative location, which explains where a place is in relation to other places. Worksheets focusing on location often include map reading exercises and activities that help students identify different places on a globe or map.

3. Human-Environment Interaction

This theme explores how humans adapt to, modify, and depend on their environment. Worksheets often include activities where students analyze the impact of human activities like farming, urban development, or pollution on natural surroundings. These exercises can spark meaningful discussions about sustainability and conservation.

4. Movement

Movement examines the flow of people, goods, ideas, and information across the planet. Worksheets might involve tracing migration routes, trade networks, or communication pathways, helping students appreciate global interdependence.
