Origin and Evolution

The “Team of Teams” concept originated within the military context, specifically during the U.S. military’s efforts in Iraq. General Stanley McChrystal and his leadership team recognized that traditional command-and-control structures were insufficient in dealing with the fluid, unpredictable nature of modern combat. To succeed, they needed to foster a more adaptable and interconnected organizational model. This approach emphasized breaking down silos, encouraging collaboration across units, and empowering individuals at all levels to make decisions.
