Understanding the Context of carte region bretagne 2013 na 512

At first glance, "carte region bretagne 2013 na 512" appears to be a map-related code or file name, possibly referring to a specific map or dataset of the Brittany region from the year 2013. In French, "carte" means map, "region Bretagne" points to the Brittany region, and "2013" likely indicates the year of the data or publication.

The “na 512” part could denote a particular map scale, grid reference, or a catalog number used by cartographic archives or geographic information systems (GIS).

The Importance of Regional Mapping in Brittany

Brittany, or Bretagne in French, is a region rich in history, culture, and natural beauty. Regional maps are essential for many reasons: - **Administrative clarity**: Brittany has undergone several territorial and administrative changes, especially notable in the early 2010s when regional reforms reshaped France’s territorial boundaries. - **Tourism and travel planning**: Maps guide visitors through Brittany’s diverse landscapes—from rugged coastlines and sandy beaches to ancient forests and medieval towns. - **Environmental management**: Detailed maps help in conserving Brittany’s unique ecosystems, including its coastline and protected natural areas. - **Cultural heritage**: Mapping helps preserve and showcase historic sites, Celtic heritage, and linguistic diversity. The “2013” component in this context is significant because it corresponds to a period just before the major territorial reform of French regions in 2016, which merged some regions but left Brittany intact as one of the 13 metropolitan regions.

The Geographic and Administrative Landscape of Brittany in 2013

To fully appreciate the carte region bretagne 2013 na 512, it’s important to understand how Brittany appeared geographically and administratively at that time.

Five Departments, One Region

Brittany is composed of five departments: 1. **Ille-et-Vilaine (35)** 2. **Côtes-d’Armor (22)** 3. **Finistère (29)** 4. **Morbihan (56)** 5. **Loire-Atlantique (44)** – *Note*: While historically part of Brittany, Loire-Atlantique was administratively attached to the Pays de la Loire region since the mid-20th century. In 2013, maps of the region often focused on these five departments to reflect historical Brittany, though official administrative maps typically excluded Loire-Atlantique. Understanding these distinctions is crucial when interpreting any regional map from this era.

Maps from 2013 often detail these features with a blend of traditional cartographic symbols and early digital GIS enhancements.

How to Interpret the “na 512” in carte region bretagne 2013 na 512

The cryptic “na 512” part of the phrase can be puzzling, but breaking it down helps clarify its meaning.

Possible Meanings and Uses

- **Map Scale or Grid Reference**: In many cartographic systems, numbers like “512” can denote specific map sheets or grid tiles, especially in large-scale series. - **Digital File Reference**: If the map exists in a digital archive or a GIS database, “na 512” could be an internal code identifying the file or dataset. - **Projection or Resolution Indicator**: Sometimes, numbers relate to the resolution of the map or the projection system used. Understanding Carte Region Bretagne 2013 NA 512

The term "carte region bretagne 2013 na 512" likely refers to a regional map from 2013, associated with a specific code or reference number ("NA 512") that

denotes either the map series, cataloging system, or a classification within a national archive or cartographic database. Bretagne (Brittany) is a region in northwest France, known for its distinct cultural heritage, coastal geography, and administrative divisions. Maps such as this one serve multiple roles: they provide spatial representations for government planning, support tourism and education, and offer researchers a snapshot of the region's characteristics at a given point in time. These elements, combined into a single resource, allow users to interpret spatial relationships and regional dynamics with greater clarity.

Historical and Regional Context of the 2013 Map

In 2013, Brittany was at a pivotal moment in terms of its administrative and economic positioning. While the region's historical identity remained strong, there were ongoing discussions about regional governance and territorial reforms at the national level.
